Nano Code Lock
For all kind of furnitures & lockers boxes

The NANO90 is the ideal compact solution for small lockers and furniture drawers. Simple keyless access; enter a four-digit code, lock and go! Fit he product in place of standard cam locks, NANO90 can be surface mounted or flush fitted for a really sleek look. Same quality, same efficiency, just smaller.

Features:
-12 button keypad - 8 digit master and Sub-master code
- 4 digit user code - 6 digit technician code
- Vertical, right and left hand versions
- Private / Public function - Easy to fit and program
- Up to 100,000 operations from 1 x coin cell battery
- Battery Override - Auto Unlock
- All parts/fixings/templates included

FUNCTIONS

KL1200 has
two functions:

Private Function

This is the default function and ready pre-programmed in new locks. The function is used where the same code will be repeatedly used, e.g. a pupil in a school or an employee with the same locker in the workplace.

Public Function

In this function the KitLock operates with a single User Code. The user enters a person four-digit code. This locks the lock. The same code is entered once only to open the lock before automatically being erased and ready for next user. This function is used for shorterm, multiple occupancy applications, e.g. a locker in a sports club.

CODE LEVELS

KL1200 has four code
levels available:

8 digit Master Code / 8 digit Sub-Master Code /
4 digit User Code / 6 digit Technician Code
