## Partition Folding Door 80kg per panel

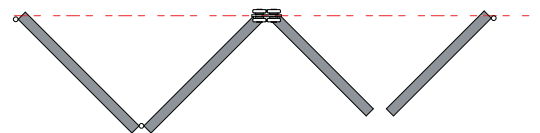

### EXAMPLES OF ASSEMBLY:

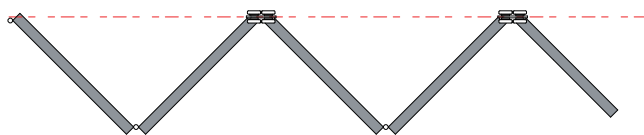

2 panels and 1 service door

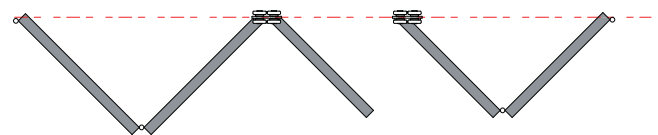

2 panels and 1 service door + 1 panel

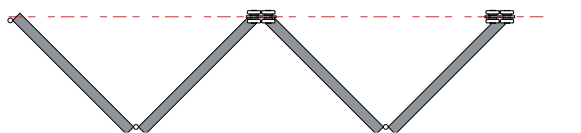

4 panels and 1 service door

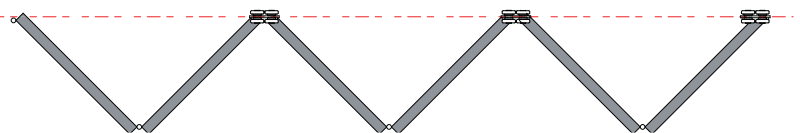

2 panels and 1 service door + 2 panels together

4 panels together

6 panels together

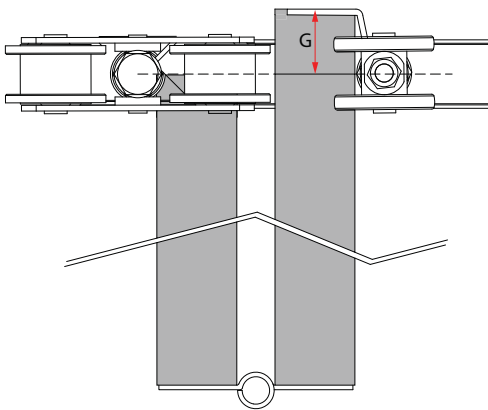

### Partition Folding Door 80kg per panel

#### USE OF END HANGERS

They must be fixed on to the end panels. The width of the end panels must be equal to the width of the other panels, increased by the G dimension.

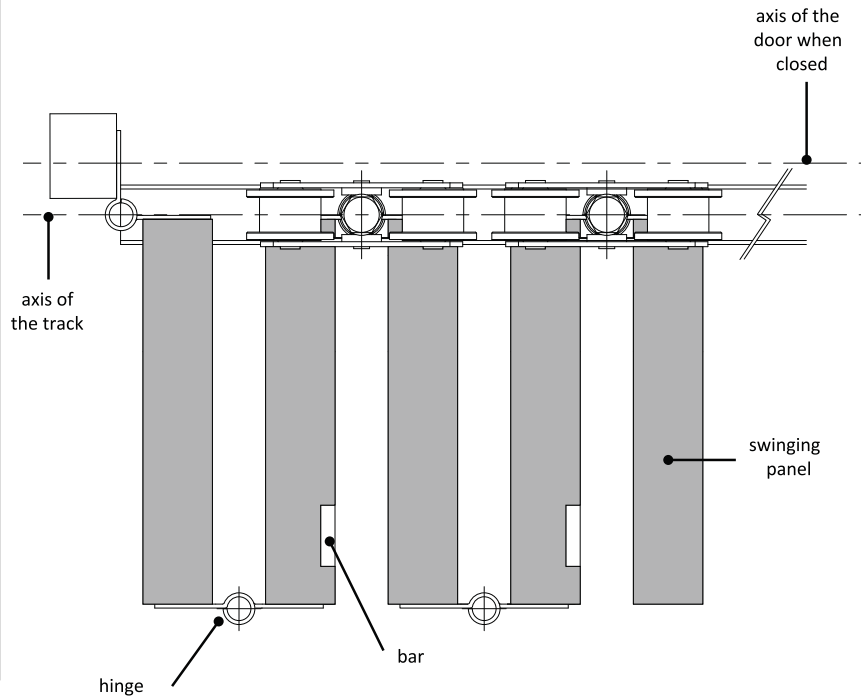

Item N r	G
9542 EN	

#### CROSS SECTION, TOP

Folding door with 4 panels and a swinging panel, folding on one side only. This top view of a set of panels shows more precisely the use of the items.

The swinging panel can be blocked by a bar (opening from inside only)

See our assembly recommendations on p. 26
